♠ About the System

Sacred Symbols is based on the book *Sacred Symbols of the Ancients* (1947) by Edith Randall and Florence Campbell. In this foundational work, the authors present a unique, scientifically grounded system based on what we now recognize as 52 playing cards.

Despite using these symbols or cards, this app does not predict the future and is not intended for fortune-telling. It is designed as an educational tool — in fact, as a calendar to help individuals understand recurring patterns in their lives and relationships.

The 52 symbols represent a solar calendar, which is cyclical in nature, not predictive:

- 52 cards in the deck = 52 weeks,
- 13 cards in each suit = 13 full moons,
- 12 face cards (king, queen, jack) = 12 months,
- 7 planets = 7 days of the week,
- 364 values (Ace through King: 1–13, totaling $91 \times 4 = 364$, plus Joker = 365.25) = a full solar year.

✨ Empower Yourself!

These symbols represent an **individual path of initiation**, covering:

- Emotional (hearts / spring),
- Mental (clubs / summer),
- Material (diamonds / autumn),
- Spiritual (spades / winter) components.

This makes the system unique compared to others. The 13 cards from Ace to King represent the journey from **desire (Ace)** to **mastery (King)**.

- **7 odd-numbered** cards bring movement and expansion (learning),
- **6 even-numbered** cards enable the consolidation of what's learned.

The 7 planets – from Mercury to Neptune – represent the actual path of manifestation:

- Everything begins with the **mind (Mercury)**,
- Polarizes with **Venus and Mars**,
- Expands with **Jupiter**,
- Structures with **Saturn**,
- Renews with **Uranus**,
- Elevates with **Neptune**.

Each birth card has its path. In connection with the ruler of your zodiac sign (the planet of your zodiac), this system helps you understand yourself and recognize the right time for the right actions. This allows for conscious and successful life design — with love and gratitude.

Annual Changes

Each year, on your birthday, a new journey begins through 7 **planetary periods** that last about 52 days. Periods that include December 31st or February 29th (in a leap year) last 53 days. Each of these periods includes one of the 52 symbols.

The combination of color, number, and planet defines the quality of time with which you can align. Thus, we gain balance in life and gradually learn to recognize all the cards and their qualities. This means that we can easily adapt to each life challenge — and the result is holistic success.

The birth card, every year (with a few exceptions), occupies a new position in the matrix. The layout (spread) gives us a higher perspective — a bird's-eye view of the coming year.

The **Notifications Section** shows changes in periods for you and your chosen contacts. This gradually empowers you to make the right decisions in all areas of life — and this is truly wonderful!!

Layouts (Spreads)

The so-called spiritual or natural layout is the foundation for everything. It shows the "Divine Order," where everything is "in its place." The scientific method of squaring cards leads to a new layout, called the **mundane layout**, where your birth card, in 49 out of 52 cases, will be in a different position.

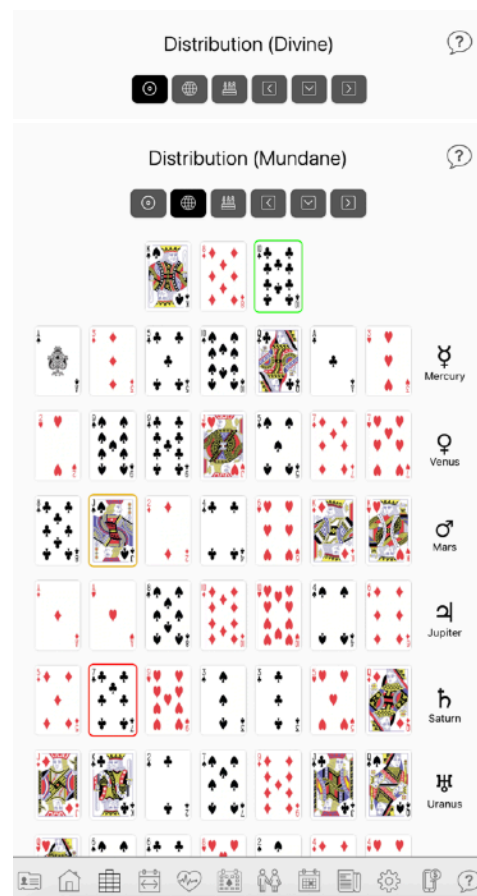

This difference creates an exceptional dynamic, which the app highlights!

From here, we travel through 90 quadrations until the circle completes ($90 \times 4 = 360^\circ$), and the system starts anew.

What's Next?

There is much more to be said about this — and much of it is explained in numerous videos on YouTube or Odysee.

For now, enjoy this wonderful app that will be a quiet and faithful companion in your life. Act as a beacon and share the app with friends – so it reaches as many hearts as possible, allowing us all to live at higher levels.

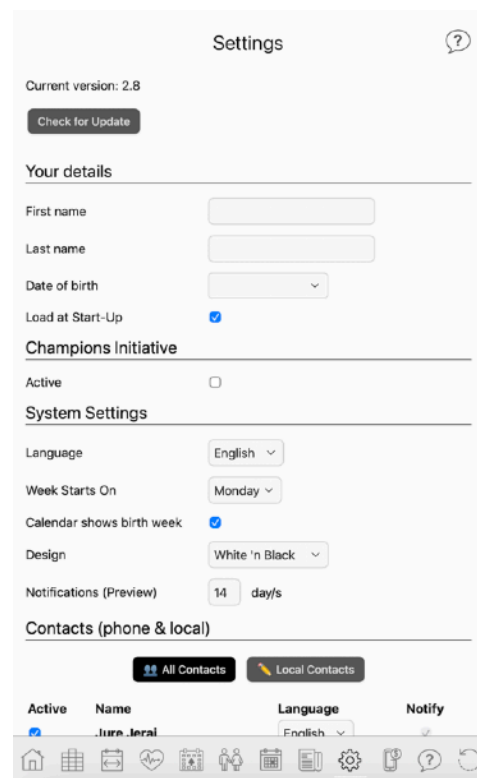

Settings

Here you set the basic functions to ensure the app works properly. First, you enter yourself as a local contact. Once you save the data and restart the app, this contact will appear in the list and will be marked as active – this makes you visible in the contact list.

Since you have allowed the app access to your phone's contacts, those with a complete birth date will appear in the list. You can choose which ones you want to include. You can also allow active contacts to receive notifications about changes in periods.

The range of notifications can be adjusted from 1 to 52 days before the change.

Additionally, you can change the interface language and assign each active contact their preferred language. This is particularly useful when you want to share information from the app with someone.

First Button on the Left by the Name

Welcome to the **Sacred Symbols app** – we are happy you're here!

Sacred Symbols represents the sacred symbols of the 52 playing cards, revealing valuable and precise information about you and your loved ones – their personality traits and current energy signatures.

How you use this information is up to you. Ideally, it can be used for harmonizing relationships and for personal growth. If the app contributes to this, it has fulfilled its purpose.

On this page, you select the **person** you want to learn more about. **First, select yourself.**

The app uses contacts stored in your phone. Don't worry – this is strictly for the functionality of the app. Your data is never sent to external servers.

Once the review is complete, the app checks all stored contacts. It only shows those with:

- **Full name** (first and last name),
- **Complete birth date** (day, month, year).

Your local contact, which you set in the settings, is also included in the review. Once completed, select the contacts you want to use within the app – this can be done in the Settings tab.

Then, you select the person for whom you want to view the cards and explanations.

Once the person is selected, the contact's **homepage appears**. At the top, there's a date picker that allows you to see which daily card was active on a specific day.

Under the name and birth date, the following information is displayed:

- **Birth card** (calculated from the birth date),
- To the left: **zodiac sign**,
- To the right: **planetary ruler**, which is one of the eight planets from the birth layout (from Mercury to Pluto).

Below that, you'll see:

- The number of days that have already passed and how many days remain in the current **52-day period**,
- **The date of the next period change**,
- The current **planetary period**,
- The current **planetary year** (7-year cycle from Mercury to Neptune).

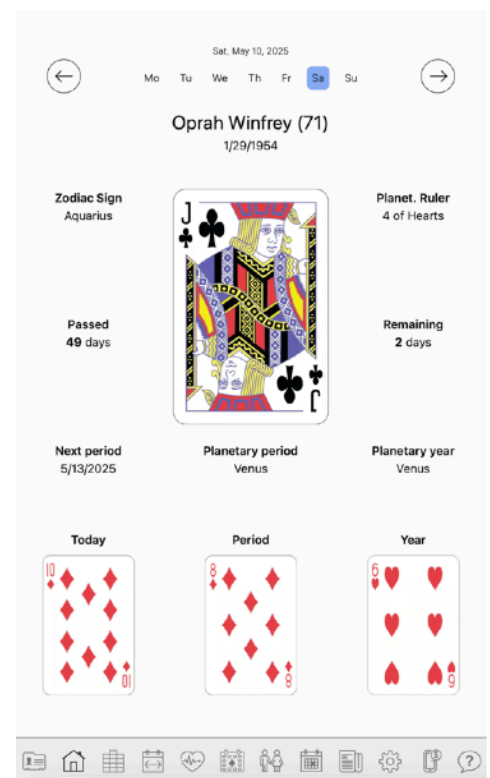

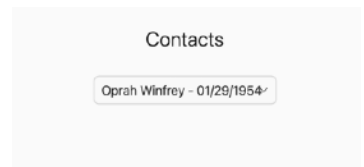

At the bottom, there are **three key cards displayed**:

1. **Daily card**,
2. **Current period card**,
3. **Annual (or long-term) card**.

Most elements are clickable and guide you to other parts of the app. Explore — you'll quickly become familiar with it!

We wish you lots of joy and new insights with this unique app.

General Explanation

The **Sacred Symbols system** is based on two fundamental layouts:

1. **Natural Layout** (also called divine, spiritual, or prenatal layout) shows the natural **order of God's plan** on three levels:
 - * Colors (symbols),
 - * Numbers (points),
 - * Planets.
2. Each level has its rhythm, expressed through the cards.
3. The **Mundane (Birth) Layout** represents the human shift from divine order. It is calculated by a special shuffling of the deck, starting with the Ace of Hearts at the top and ending with the King of Spades at the bottom. This is where your life truly begins.

The squaring process (square reshuffling of the cards) is then repeated every year, creating new annual layouts. The birth card moves to a new position in the matrix each year and receives different planetary influences. This allows you to determine which energies or qualities of time are present in a particular period of life.

Just like we dress differently in winter than in summer, we can also adapt to the energies of a particular period.

Dynamic Occurs when one card displaces another or when a card is displaced:

- A displaced card often "owes" something to the card it replaced – this represents **unconscious challenges**,
- At the same time, it receives **support** from the card that took its place.

This applies to both the entire life and individual years.

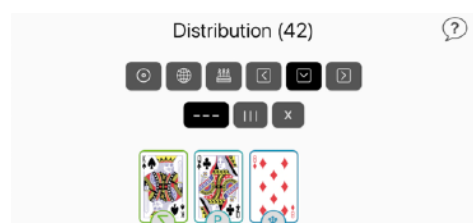

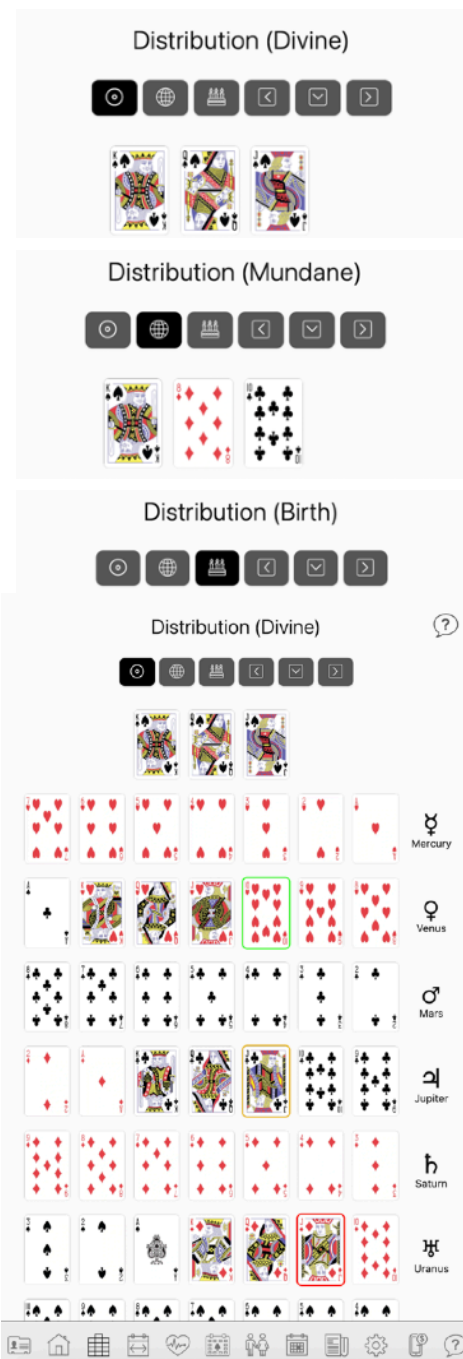

Display Mode

There are **three display modes available**:

1. **Standard (Horizontal)** – Displays the planetary cards for the selected year.
2. **Vertical Mode** – Offers supportive interpretations showing what or who is connected to the theme in the horizontal display.
3. **Diagonal Mode** – Reveals mutual connections where energy flows both ways, not just in one direction. This is especially useful for temporary relationships.

Evaluating Positions:

- Positions 1, 2, and 4 are usually more favorable,
- Positions 3, 5, 6, and 7 require more caution.

Annual Analysis

Every year, you go through **7 periods**, each lasting 52 days (in exceptional cases 53), associated with the **planets from Mercury to Neptune**.

Additionally, the year is marked by special cards:

- **Pluto's Card** – the theme of transformation,
- **Challenging Card** – the one you've displaced from its birth position,
- **Support or Environmental Card** – the one that occupies your birth position this year,
- **Annual Card** – the general energy of the year.

Planetary periods form a specific **energy matrix**:

1. **Mercury** – the initial mental phase,
2. **Venus and Mars** – polarization and relationships,
3. **Jupiter** – growth, expansion, and reward,
4. **Saturn** – trial, structure,
5. **Uranus** – renewal, changes, innovation,
6. **Neptune** – spirituality, mysticism, connecting with the higher.

At the end of the Neptune period, you start a **new year with new cards, tasks, and opportunities**.

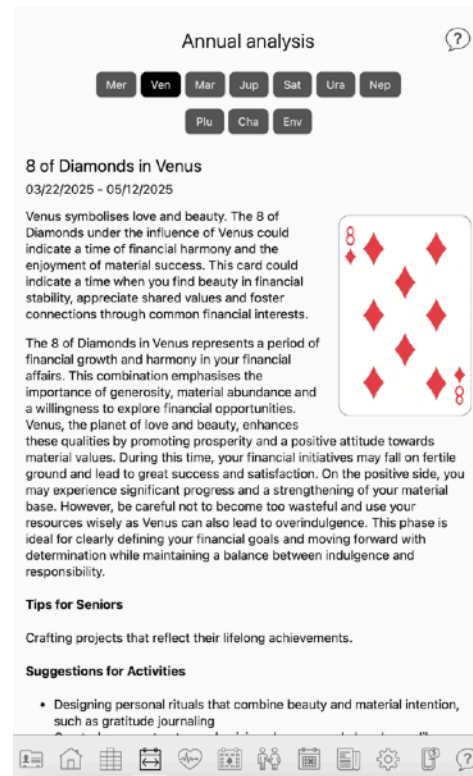

Life Analysis

Each birth date is associated with a specific **birth card** and **planetary ruler**. Each card contains two main components:

- **Color (symbol),**
- **Numerical value (pip).**

In the app, you'll find **useful texts and explanations** about both aspects. Additionally, there are **astrological notes** on the zodiac sign, providing you with **excellent insights into your life or the life of others**.

We recommend that you **carefully read and study this information**.

The 8 of Diamonds in Venus represents a period of financial growth and harmony in your financial affairs. 💖 Relationship Analysis

This system allows for exceptionally **accurate analysis** of the relationship between two individuals. For the first time in history, a **6×6 matrix** has been created, which shows **the key connections between the two people**:

- **Birth Cards** (BC1 and BC2),
- **Planetary Rulers** (PR1 and PR2)
- **Karmic Cards** (1K and 2K).

Connections are **weighted by importance** — connections between birth cards and rulers carry more weight than those with karmic cards.

The matrix is read from top left to bottom right. Pay special attention to the first four quadrants in the upper left corner – these connections are highlighted in gold. Connections involving at least one birth planetary element are marked in white.

Focus particularly on the **KARMA** sign, which indicates a karmic connection between the two people.

Razlaga simbolov:

- **MO, ME, VE, JU** = Luna, Merkur, Venera, Jupiter → **harmonične povezave**,
- **F/R** = *Forward / Reverse* (npr. JUF = oseba 2 je Jupiter za osebo 1),
- **S** = povezava v **duhovni (naravni) razporeditvi** (npr. PLFS = oseba 2 je Pluton v duhovni razporeditvi za osebo 1).

Primer: če piše **MARS**, pomeni, da oseba 1 zaznava osebo 2 v energiji Marsa – vendar to **ni nujno obojestransko**. Za to bi bila potrebna oznaka **MAF** ali **MAFS**.
